

VR LIBRARY STORAGE SOLUTIONS

We offer a great selection of classroom and educational furniture including: desks, chairs, play equipment, library furniture, indoor/outdoor bleachers, lockers, Auditorium chairs and cafeteria tables.

MOST POPULAR, EASY AND A COST EFFECTIVE WAY TO INCREASE STORAGE CAPACITY

We introduce you to one of the best space saving system in modern times "Compactor Storage Systems". Now a day's space is the costliest and scarce part of your office ecosystem. How would you feel if there is a technique to create additional storage space within the existing area. We introduce you to the ultimate mobile storage system with the latest technology which is noise-free, effortless and provides smooth operation for decades. The system is secured, lockable and cost effective way to keep your office documentation etc. Compactor Storage Systems requires lesser space and provides more storage in comparison to than conventional racking systems. With the help of compactor storage system you can save upto 60% of your space or can consume up to 100% of your storage area. We as Compactor manufacturer design compactors to minimize power in order to move heavy items. The system glides on gears, rollers and chains for smooth movement of the storage structure. Since storage units are movable only one aisle is required to service multiple racks.

Advantages :

Space saving: Compactors Storage can save up to 80% area because one single aisle is used to operate all the shelves.

High storage capacity: The space created by using single aisle can be reused to generate more storage space.

Safeguard Items: Loaded items are safe from pilferage, theft and any other kind of damage which is not possible in other storage systems.

Saves human effort: Compactor storage systems runs on rollers, wheels and well lubricated chains which enables movement of unit with minimal human effort.

Well organized material: Every unit has one acrylic sheet on the front panel for easy identification & retrieval of the stored item.
