VR MODULAR WORKSTATIONS

We provide our clients with exceptional quality range of modular partition. The modular partition furniture that we designed includes desks, drawers and keyboard trays.

These products are extremely useful for offices, BPOs and various other companies. We design these products using different material, and in varied textures & colors.

Having an aesthetic look, the separations are known for their ergonomic designs, rich quality and interchangeability.

Completely flexible, interchangeable, adjustable, reusable & expandable Space usage by providing storage above, below as well as around the working area .Aesthetic look ,ergonomic designs, vast choice of material, textures & colors International quality design, Superior quality raw material & technologies that are used meet the industry standard

To enhance the corporate image of an organization. We have created a office modular partition system which is a perfect blend of flexibility, durability and aesthetic value.

These modular partition systems are made in multiple sizes & designs using experienced skill. Our range can also be availed in customized specifications as per the requirements of the customers

Variety of Customization possible.

VR Modular Partitioning system of 75 mm thickness can be customized with regards to different sizes, material finishes, glass panel positioning, etc...VR modular work stations can also customized as per different depth of work tables, sizes, colours, material specification and different shapes.

Very easy to plan & to erect

A bare minimum set of components makes the VR modular system very popular, very easy to assemble and specify. And its modularity allows it to erect them almost instantly. The entire configurations are inter changeable, which also allows additions or subtractions to the full system convenient and very economical.

Aesthetics and environment

A wide range of colour combinations are possible and variety of materials in metals, laminates, and also fabrics could be selected to suit the premise or business and personally. All the material and colours used will be eco-friendly and durable.
